

## THINGS WITH WINGS

It's a bird. It's a plane. It's ???????

When you think of wings, what inspires you? Whether you are a beginner or experienced quilter, we encourage you to participate in this year's challenge and share your winged creation with the members of our guild.

You are free to use the technique or mixed techniques of your choice for the challenge; including but not limited to, paper piece, applique, or traditional piecing. Feel free to use your choice of fabric. The use of embellishments and unconventional fabrics in your design are welcomed. The size of your piece should be no larger than 30" X 30", but the shape can be circular, rectangular, or square. There is no minimum size.

So, take the challenge and show us your wings! Judging will take place at the **January** meeting.
